

Financial Scholarship Policy

- Each session, five financial scholarships will be awarded for families experiencing financial difficulties.
- Scholarships will only be awarded to returning families who have already attended at least one session of Music Together classes with our center.
- Each scholarship will cover the cost of **ONE** child's tuition minus the cost of the service fees (around \$45). If you have two children over the age of 9 months who will attend, the scholarship will only cover your first child. You will still need to pay the sibling tuition for the second child.
- Scholarships can only be used to attend classes that still have spots available one week before the start of the session. Scholarships cannot be used to attend full classes. The director will contact the families receiving scholarships one week before the first day of the session and notify those families of which classes still have openings. We will do our best to accommodate you at the location of your choice, but these classes may not always be available.
- Scholarships are awarded only once per family.
- Scholarships will be awarded on a first come first served basis. You can apply for a scholarship any time during the registration period for the session you would like to attend.
- For families who are awarded a scholarship, we ask that you only attend your scheduled class day/time. Please do not schedule make up classes for any absences, as there are often not enough make up spots to accommodate everyone who needs them.
- To apply to receive one of these scholarships, please email the director at ccmusictogether@gmail.com. Please include your child's name and age, your contact information and preferred class location.
